

USMAN
WAHEED, Msc Bim
BIM ARCHITECT

PROFILE

Detail-oriented and innovative Architect with 5+ years of experience in architectural design, interior execution, and multidisciplinary coordination. Proficient in OpenBIM, AI-assisted architectural workflows, and sustainability-focused design strategies. Versatile in integrating traditional design knowledge with modern technologies, including BIM automation and generative AI tools.

WORK EXPERIENCE

BIM+A | BIM COORDINATOR

Porto, Portugal | present

- Managed federated model integration for [API TOWERS / \$100M scale] high-rise hotel, commercial, and residential towers in the UAE, delivering fully coordinated LOD 400 models to site teams.
- Led multi-disciplinary spatial coordination and automated clash detection using Revizto between consultants and sub consultants.
- Devised overarching model federation strategies, managed link architecture, and enforced strict QA/QC protocols

TARC – Tayyab Architects | Architect

Lahore, Pakistan | 2022 – 2024

- Led architectural and interior projects through full design cycles.
- Collaborated with MEP engineers and BIM modelers using shared models.
- Created AI-generated moodboards and visualization concepts to accelerate early design phases.
- Implemented BIM documentation standards using IFC and COBie formats.

Eastern Construction Company | Junior Architect

Lahore, Pakistan | 2017 – 2021

- Produced design development packages and client-ready visuals.
- Managed project proposals, 3D walkthroughs, and detail drawings.
- Participated in adopting BIM practices and automating Revit workflows.
- Developed presentations for enhanced client engagement.

EDUCATION

- Erasmus+ Master’s in Building Information Modelling (BIM A+)**
 - University of Ljubljana (Slovenia).
 - Completed up to BIM A+ Level 7
 - Specialized in BIM workflows, interoperability, OpenBIM, AI integration
- Bachelor in Architecture and Design**

+351-920617723

SKILLS

- BIM & Technical Skills**
 - BIM Automation & Interoperability (Dynamo, IfcOpenShell).
 - BIM Coordination & Clash Detection (Navisworks, Solibri).
 - IFC, BCF, COBie, ISO 19650 (OpenBIM standards)
 - Revit, BlenderBIM, BIM360, Dynamo
 - Sketchup, Autocad, Lumion, Photoshop
 - 3D Modeling & Visualization (3ds Max, Corona Renderer)
 - Quantity Takeoff & Cost Estimation using IFC data
 - CDE platforms (Trimble Connect, ACC)
- AI & Computational Design**
 - AI Prompt Engineering for Design Conceptualization
 - AI-powered Tools (Midjourney, DALL-E, Veras.ai, LookX)
 - Workflow Automation using AI + BIM
 - Basic Python Workflow with AI
 - Generative Design using AI-integrated software
 - Schematic Design Development with AI Assistance
 - Visual storytelling using AI for client presentation.
- Architecture & Design**
 - Concept to Execution: Residential & Commercial Projects
 - Interior Design & Turnkey Execution
 - Sustainable and Energy-efficient Architecture
 - Site Supervision & Technical Compliance
 - Cross-disciplinary Team Coordination (MEP, Structural)
- Soft Skills**
 - Client Communication & Presentation
 - Creative Problem-Solving
 - Adaptability in Multicultural Settings
 - Research & Trend Analysis
 - Attention to Detail and Quality Assurance
- LANGUAGES**
 - English – Proficient.
 - Arabic – Intermediate
